The following changes are introduced in the Regula-

tions as regards the time of study in the case of Officers who are required to attend the College.

(a.) The time allowed to Acting Sub-Lieutenants to qualify for their Examination in Navigation for Lieutenants will be extended from six weeks to

six months.

(b. My Lords propose that successful Candidates for Commissions in the Royal Marine Light Infantry should, before receiving their Commissions, have should, before receiving their Commissions, have the advantage of a term of study in the College. Officers have not yet been concluded.

(d.) All acting Assistant Engineers will in future be
sent to Greenwich, after leaving the dockyards,
for a period of study before their appointment to
sea-going ships.

As regards officers on half-pay, my Lords are particularly anxious that young Lieutenants should at once, on their promotion to that rank, avail themselves of the advantages of the College before their turn would come for appointment to a ship. The regulations specify allowances which are intended to remove any pecuniary signalization in attending the College; and special condifficulties in attending the College; and special consideration for appointments will be given to Lieutenants who thus occupy in so useful a manner the time necessarily spent on shore.

Arrangements have been made for the admission of Naval Engineer Officers to the College, which will prevent time spent at the College from entailing any pecuniary loss upon them.

The School of Naval Architecture at South Kensington will be absorbed in the Royal Naval College, Greenwich. The regulation for the admission of Europeae Students. will be absorted in the Royal Naval College, Greenwich The regret of the definition of Engineer Students and of Dockyad April College, Greenwich and to Dockyad Application of Engineer Students and of Dockyad Application of Engineer Students and to Dockyad Application of Engineer Students and the College on Students to the College on Students to the Students to the course of study at the College on similar conditions to those now existing at South Kensington. My Lords have further determined to admit a limited number of Officers of the Mercantile Marine as Students of the College, enjoying the full advantages of the whole course of instruction and tuition by the Educational Staff, while Officers of the Mercantile Marine generally will, on application, be allowed to attend courses of lectures.

lectures.

The paramount object which my Lords have pursued in the organisation of the College has been to provide the most efficient means for the higher education of the most efficient means for the higher education of Naval Officers adequate to the constantly increasing requirements of the Service; but my Lords also anti-cipate great advantages from the results likely to accrue from the connection which will be established through the College between men distinguished in the various departments of mathematical, physical, and chemical science, and those practical problems which so vitally interest the navigator, the naval architect, and the My Lords expect the College to become, not only an eaucational establishment affording the means of the
